

Continuing & Distance Education

E-Commerce Winter 2012

The E-Commerce Course is offered on-line by the Continuing Education Department of St Francis Xavier University. The program features a 12 week course offered in the winter of 2012.

E-Commerce is defined as the use of the Internet to sell goods and services. This course should be of interest to individuals who wish to start their own online business or wish to make an existing online business more profitable, Students who are seeking employment in the on-line business field will find the certificate to be a valuable qualification. Finally anyone who is interested in simply gaining a better understanding of e-commerce and how it works will find the program very informative.

January 23, 2012 to April, 2012
